Dear Mr. Freeman:

The amendment to your notice that we previously serialized UTU-075853, was received on April 21, 1998, and has been accepted to include additional activities on mining claim numbers UMC 363474-5, located in SW/4NW/4, Sec. 23, T. 12 S., R. 10 W., SLBM. The serial number of the case file has not changed.

If you again change your operation from what is described in your notice and amendment, you are required to contact this office prior to the change. If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your notice.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, stipulated by the Richfield District, House Range Resource Area. Please follow these guidelines as they pertain to your operation.

A copy of your amendment has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with them. A copy of your amendment has also been sent to the Utah Department of Environmental Quality, Division of Water Quality (DWQ). DWQ should contact you concerning any permits you may need, however their failure to do so does not absolve you from responsibility for obtaining the same.

Also, all mining claimants and operators intending to use, store, or divert water are required by Utah and Federal statute to notify the following agencies:

Utah Department of Water Resources
1636 West North Temple
Salt Lake City, Utah 84180-1203

and

U. S. Army Corps of Engineers
Utah Regulatory Office
1403 South 600 West, Suite A
Bountiful, Utah 84010

If you are selling any minerals extracted during your mining activities, the U. S. Department of Labor, Mine Safety and Health Administration (MSHA) may consider your operation to be under its jurisdiction. We recommend you contact them at:

USDOL Mine Safety and Health Administration
125 South State, Room 8220
Salt Lake City, UT 84138

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands and reclamation is required at the earliest feasible time. Please notify this office upon completion of operations and reclamation so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your amendment will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

Prior to the commencement of your operations, we would like to meet with you on site to review reclamation practices and initiate a reclamation plan. Please contact this office to arrange the meeting. If you have any questions regarding this letter, please feel free to contact Ron Teseneer at (435)743-3126 or me at (435)743-3100. Thank you for submitting your amendment.

Sincerely,

Rex Rowley
Area Manager
